About Me

Computer Science Engineering undergraduate with a strong interest in software development, cybersecurity, and robotics. Passionate about building practical projects, solving algorithmic problems, and continuously learning modern technologies through hands-on development and real-world applications.

Education

Centurion University of Technology and Management

Bachelor of Technology (Computer Science and Engineering)

CGPA: 8.59

Expected Graduation: 2028

Technical Skills

Programming Languages	Java, Python, C++
Core CS	Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
Frontend	HTML, CSS, JavaScript, React, Tailwind CSS
Tools	Git, GitHub, Linux (Ubuntu/Kali), VS Code, ROS Noetic, Gazebo
Cybersecurity	Nmap, Wireshark, Burp Suite, Splunk, Maltego

Projects

Adidas Sales Dashboard

- Built an interactive sales dashboard using Python and Streamlit.
- Analyzed the Adidas Sales dataset from Kaggle.
- Visualized sales performance and business insights using interactive charts.

Personal Portfolio Website

- Developed a responsive personal portfolio using React and Tailwind CSS.
- Designed a modern user interface with smooth navigation and animations.
- Showcases projects, technical skills, and achievements.

ROS Agrobot Simulation

- Developed an agricultural robot simulation using ROS Noetic and Gazebo.
- Implemented robot description, launch files, and simulation environment.
- Simulated robot movement and environment interaction.

Achievements

- Solved 60+ Data Structures and Algorithms problems on LeetCode.
- Built multiple academic and personal software development projects.
- Participated in cybersecurity labs and Capture The Flag (CTF) practice.

Certifications

- GeeksforGeeks – Java Programming Certificate
- GeeksforGeeks – Data Structures and Algorithms Certificate
